See Summary of Record of Interview requirements on reverse side or on attached sheet.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Treitler argued that Skarda et al. does not disclose a "control means for controlling power supply to said antenna device" (a proposed amendment to claim 1). The Examiner will review the Skarda et al. rejection. If Skarda et al. indeed does not explicitly or inherently disclose a control means for controlling the power supply to the antenna, and if such proposed amendment has support from the originally filed specification, the Skarda et al. rejection will be withdrawn..
